

**NEW
Thick, Dry
Adhesive**

Adhesive Dry Film Holds 3D Shapes

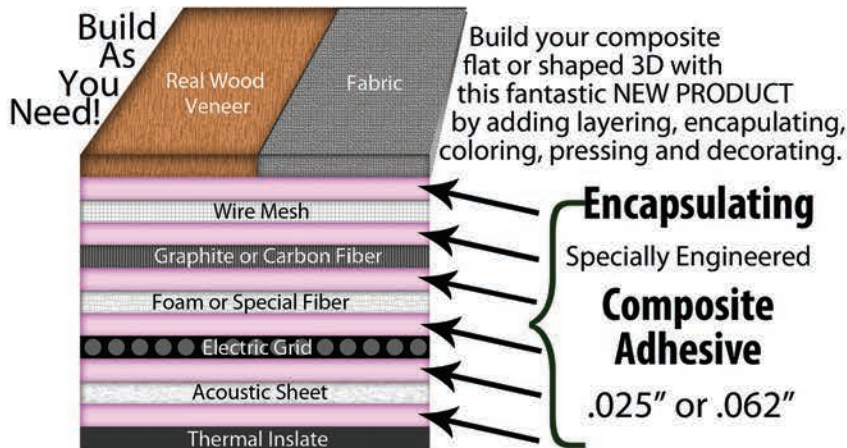

**Strong,
Stable,
4' x 8'**

Foam - Wood - Plastic - Fabric - Felt - Metals

Lay up any of the above for PERFECT 3D PARTS

Auto | Aircraft | Seating | Office | Furniture | Partitions | Cabinets | Signs | Overlay | Backer
Fixtures | Musical Instruments | Dieboards | Frame Stock | Packaging

Think it. Shape it.

1. Heat sandwiched layers flat to 220F.
2. Transfer to 3D shaped clamp, mold, or pinch tool.
3. Cool into a PERFECT flat or 3D molded component.

EXACT QUALITY. EVERY PIECE.
