

# Hit a Wall? NOT a problem!

**Lenderink Technologies.**  
Scaling Walls. Building Tunnels.  
Blending Application, Engineering,  
Research & Development.

Solving manufacturing, materials and designs  
challenges through product development  
and resourcing for over 50 years.

## SOLUTIONS!

Over 60 Years!

### INTRODUCING

**Veneers With or Without Preapplied Adhesive**  
**Aromas - 3D Shapes - Printing**

**State of the Art Lamination Equipment**  
(Unlimited length up to 4" thick capabilities)

Continuous Feed Heated Laminators

**Recycled Foam, Lightweight & Strong**

(Exhibits, Displays, Furniture, Packaging, Auto, Boat, Aircraft, Rail, Medical, Musical)

Think It.  
Shape It.

Foam from  
Recycled  
Pop Bottles

### Prototype Solutions

Adhesive/  
Clear Overlays

**Dribond Dry Film Adhesives**

(Thermoplastic, Thermoset, Peel-n-Stick, Biodegradeable)

Any Thickness Veneers

**MicrcoThin Wood Veneers**

(Eco Green/Translucent)

Sound,  
Temperatures,  
Weight Control

Backer/Overlay

**Fiber - Paper - Fabric Backers, Core & Substrates**

(Doors, Partitions, Construction, Packaging, Furniture)

Vinyl/Fabric/Film Laminators

**Fire Retardants/Class "A"**

**Veneer with Preapplied Adhesive**

(Water Resistant, Extremely Stable, Flat or Bent Parts)

3D Moldable  
Wood

Translucent/  
Extreme Flex  
Wood Veneers

**New Wonder Wood** For Easy Production of Flat or Curved Shapes  
(Without Large Presses)

# LENDERINK TECHNOLOGIES

*Where sound environmental practices,  
wise resource stewardship and practical  
solutions reflect in our products and services.*
