LENDERINK TECHNOLOGIES INC.

Blending Application, Engineering, Research & Product Development for over 50 years!

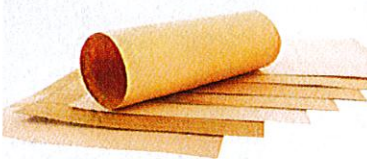

Lenderink Labs offers Prototyping & Problem Solving for manufacturing, materials and design challenges with quick, practical solutions & samples.

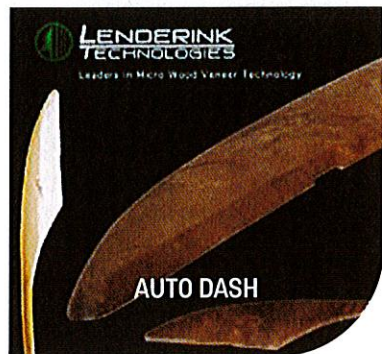

**HIT A WALL?
NOT A PROBLEM!**

LAMINATORS

HOLLOW WOOD TUBES
5/8" to 5-1/2" ID

AUTO DASH

INTRODUCING:

- **Veneers With or Without Pre-applied Adhesive or Finishes**
Aromas - 3D - Shapes - Printed - Translucent
- **State of the Art Lamination Equipment**
Unlimited length up to 4" thick capabilities
- **Foam Rigid/Recycled with Tight Edges - 4 to 20#/cu' - 1/4" to 7" Thick**
Exhibits, displays, furniture, packaging, auto, boat, aircraft, rail, musical
- **Dribond Dry Film Adhesives**
Thermoplastic, Thermoset, Peel-n-Stick, Biodegradable
- **Prototypes | R&D | Models of your designs**
- **Fiber, Paper, Fabric Backers, Core & Substrates**
Doors, partitions, construction, packaging, furniture
- **Wonder Wood Composites for Easy Production of Flat or Curved Shapes Without large presses**
- **Overlay**
Non-slip, Wet or Dry | Printable | Embossable
- **Expandable Epoxy Foam**
Heat activated expanding film adhesive used to create foam core composites and fill voids.

NEW TECHNOLOGY FOR "DESIGNERS"

Eco-Friendly Materials, Developments & Discoveries

- **PopFoam - Greenboard 100% Recycled!**

Rigid, screw/fastener holding - tight edges for edgework.
Lightweight 4-20#/cu' - 1/4" to 7" thick
Acoustic/Thermal Values & Thermoformable

- **ELKBOARD® FIBER BOARD**

1/10" VENEER H₂O RESIST
3-D Moldable. Easy to Laminate, Cut, Glue/Paint & Print
Stiffer than Aluminum | 30% Lighter than Maple
Lightweight/ Smooth/Moisture Resistant. Over 20% Recycled

- **Natural Wood & Stone Deco, Overlays & Backers.**

With or without pre-applied adhesive. Micro to Thick, Water "Proof"/ Non-Slip. Flat or bent parts. Engineered Core Veneer. Flexible. Green & Renewable.

- **Adhesive "Dry Bond"/Thermoset/Permanent**

Bonds to Almost Anything: Foams/Fibers/Wood/Metal/Stone & More - Heat Activated - **Test Us!**

- **Recycled, Compostable & Sustainable Adhesives**

Made from Sugar Cane - Heat Activated. Dry Film.

- **EXPANDABLE FILM ADHESIVE - Heat Activated**

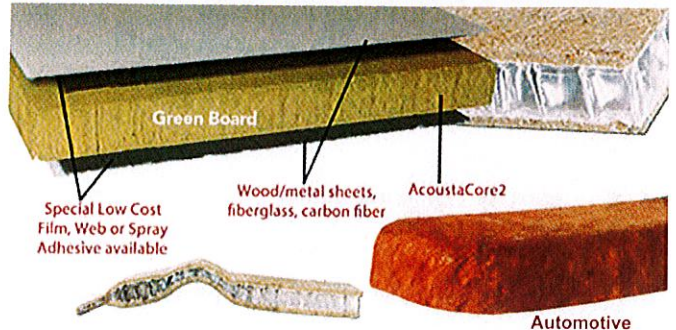

Create Foam Core Composites. Add to Mold or Cavity to Fill Shape w/o Time Consuming Machining or Costly Equipment.
Create Solid 3-D Parts

- **DECO ALUMINUM - Anti-Fingerprint**

Decorative Metal Surface. Reflective & Brushed Finishes. Interior/ Exterior Architecture Material. Mirror surface available.

- **Thin .004" Colored Aluminum Sheets**

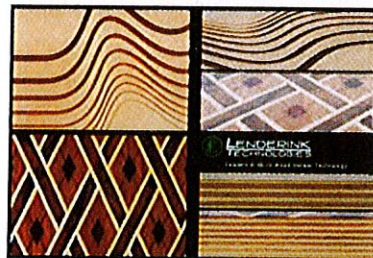

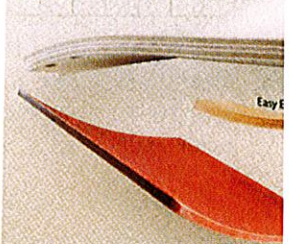

Easily Laminates, Wraps 3D, Shapes & Printable

Think it. Shape it.

Engineered Core Veneer (ECV)
