

Lightweight **GREENBOARD POPFOAM BUILDING BLOCKS** Green Innovative Construction Solution

Build faster and smarter with our innovative GREENBOARD building blocks, crafted entirely from 100% recycled plastic bottles. These lightweight blocks offer superior acoustics, waterproofing, and energy-saving insulation properties, **reducing material weight by at least 50%**. GREENBOARD blocks are easily adhered to standard construction materials like lumber, plywood, or ELKBOARD® using Lenderink Dribond Film & Web or Easy Spray Adhesive. Plus, they're resistant to mold and rot, ensuring durability and longevity for any project.

AVAILABLE AS: Bricks, Lumber, and Sheets

**Rigid, Strong, Lightweight & Flat
Popfoam Lumber**

**Laminate to Glass, Veneers,
Plywood, or HPL**
